Charlene:

Here is a copy of the draft IR survey report. I'd be glad to receive your comments on it. It would be best if we could receive any comments you have by the end of the week. I'll also send you an invite to a conference call we are having later today to discuss comments on the report.

Seth

Thank you Cindy,

Monarch's personnel did feel as if we had a good opportunity to interact with you and the personnel from EPA. Please let us know if you had any follow-up items.

Thanks,

Charlene

**Subject:** UB Aerial IR + Ground IR Surveys

Charlene –

Thanks for your time out in the field last week. As promised, I'm following up on accessing draft final report for opportunity for operator review. Dr. Seth Lyman is the project manager of this effort and can direct you to the USU link to access the report.

Seth –

Charlene said Monarch Natural Gas (now Monarch Midstream) has worked with you in the past. She asked about the status of this project.

Thanks,

**Cindy Beeler**

US EPA Region 8
